PREFACE.

THERE is no apology needed for presenting this little volume to the public. The scenes of the past four years have taught us the necessity of becoming familiar with the geography of our own country, and it is both proper and expedient that we should study our own State first. Hence, teachers and parents should hail with delight the introduction into our public schools of a State Map, and an accompanying volume like this, which will place within reach of all a critical knowledge of the Hoosier State. And this is not the only benefit which will arise from it. Local geography, properly taught, gives power and scope to the imagination; develops the mental and the moral; and teaches one to look up through nature to nature's God.

AUTHOR

TO TEACHERS.

TEACHERS: This book has been prepared especially for you—while we trust parents will use it to some extent, and thus lighten your labors—but in the main, if it accomplishes any good, it will be through you. While it is imperfect in many respects, and from force of circumstances necessarily so, still, if you use it as a guide—and that is all it is designed to be—you will be led into the right field of knowledge, and be enabled to lay a broad and extensive foundation, upon which can be built a temple of knowledge of no mean appearance. Begin right, at home, as directed by the succeeding essay; enlarge the radius, from time to time, as power of thought expands, and by and by the success of your own work will astonish you.

Attend strictly to map drawing. Too much attention can not be paid to it. Introduce it in the beginning, and continue it to the end. Teach your pupils to see every thing around them, both in nature and art; to look at an object in art, or a landscape in nature, scrutinizing it in all its minutiae; and once having seen, teach them to describe, not a careless, uncouth description, but an accurate one, clothed in pure Anglo-Saxon, and when they have seen and described, trace that description upon paper accurately, and in this manner develop the immortal mind committed to your care symmetrically, and store it with useful, practical knowledge.

Take into consideration also the *history* at every step. All the aid the author can give you, in this part of the work, is to trace the outline by questions; and you must gather the facts from sources at home. The special history of your own town, township, and county is interesting to you, and you can easily gather it from the early settlers, and make a record of it for your own use, and those who come after you; and we trust you will not fail to do so. Beyond this, you must exercise your own good judgment how far the specialities shall be carried.

In fine, we say, consider carefully the work to be done, the suggestions made, and the responsibility which rests upon you, and thus go forth into the field understandingly, and, in the fear of God, reap the harvest.

E. J. RICE.

LOCAL GEOGRAPHY:

HOW TO TEACH IT, AND ITS INFLUENCE.

IN the little world of home, the child should commence the study of geography; for, as has been said by one of the earnest educators of the Hoosier State, geography, like charity, begins at home. Here the perceptive faculties should be cultivated and fully developed. As the little birdling must learn the use of the wing before it can take lofty flights, and become acquainted with home surroundings before it can measure long journeys and make speedy and safe returns, so the child must acquire home knowledge first, and make that the basis, the resting-point, to which it can return, after real or imaginary journeys, and correct the bearings and make preparations for new and longer voyages of discoveries. It is here that the perceptive faculties are awakened, and if properly directed, a lively interest is attained, which secures the attention and the habits of observation and comparison; all of which are necessary to progress in the study of geography.

These, properly developed and rightly directed, secure not only correct and useful knowledge, and inspire the mind with a love of the beautiful in nature, but turn the thoughts heavenward, and awaken in the heart a love for the Divine Author of creation.

This can and ought to be done early among the home scenes, the home geography, where the busy evil world is shut out, and hence no opposing influences are felt. Parents and teachers should avail themselves of this early opportunity to give that bent to the mind through nature's home scenes, which will ever afterward be an anchor to the life-boat as it stems the current of active life.

Home, then, both for mental and moral reasons, is the place to commence the study of geography. The old house at home: it faces what point of the compass? On which side of it does the golden sun cast his first morning's mellow rays; and as he journeys through the heavens, what side is enlightened and warmed by his genial, life-giving beams; and as he sinks to rest in the far-distant west, where falls the departing glory of the day; and at what window do you sit to see the gray evening twilight deepen into black, gloomy night? What side of the house feels none of the warming influences of the day-king, and is only faintly kissed, morn and eve, in the long, weary summer day?

Again, with the child standing in the center of the familiar nursery-room, face northward, right hand east, back south, and left hand west: the perceptive powers are awake now, and observation begins its work. The room and its contents are described, and position of objects defined. Pass to the dining-room; the same work is done there, and now comparison between the two rooms is instituted. Judgment is brought into requisition. Form and size of room and objects are contrasted, and the idea of distance developed; length, breadth, and height are taken into consideration, and the little mind grows strong with useful knowledge and true mental discipline. Now pass to the parlor, and so on until the old house at home has been carefully explored, and notes

written, not on paper merely, which are easily destroyed, but in the immortal mind, which can never be erased. And remember that the one great peculiarity of these notes is, that they give power to take notes of greater and more lofty things.

Pass to the garden. The house fronts on such a street, which street runs in such a direction, which leads to town or city, or may be to the slow-rumbling mill that stands on the river brink, and day after day groans out the staff of life; or the old school-house, with its mossy roof and ivy-decked walls, where the six days are passed under gentle, quiet rule, and on the seventh the man of God teaches the humble peasantry the way of life—not the life of toil and pain, such as mortals feel on earth, but life divine. The old house at home, it stands so far from *that* street, and is separated from it by a fence of a certain description. Here is a walk that leads from the front door, where, as it were, but yesterday, grandpapa used to sit at noontide and nod away a quiet hour, down to the front gate. It is bordered by box plants on either side, alternating with the modest blushing May pink. Here is another walk, leading to the vine arbor on the left, where, last autumn, after the gentle frosts had crimsoned the maple leaf, the whole household would sit and feast upon the dainty fruit, hour after hour, as day succeeded day, until all were gone, and old grim Winter rendered the leafy house roofless. On the other side is a long circular bed of tulips, which in early spring expand their gaudy buds and sip the gentle dews of heaven. Opposite, the modest creeping verbenas cluster at every step. Turn to the right: the queen of flowers lines the pathway, whose mellow fragrance scents the balmy breeze of heaven, and reminds one of the enchanted grounds in the legend of the fairy isles.

Go on: here stands the grand old forest tree, in whose branches the birds of other ages have built their nests and reared their young. The haymakers have refreshed themselves, year after year, in its shade, and whiled away the oppressive heat of a harvest midday. It is a tulip-tree, and in full bloom. Gaze on its beauty until you drink it into the soul. The ruthless storm-wind has torn a branch from the parent stalk, tipped with a rich, yellow-colored blossom. Analyze it; tell the parts in all the minutiae, and thus proceed at every step, making the child familiar with all it sees, and be sure that it sees all; not even forgetting the old pump, from which it daily sips the pure cold water, the life-giving beverage of the physical soul; nor the sparkling, rippling rill which crosses the pathway to the old barn, from which the family carriage horse and the docile ox of the field slake their thirst, after their task for man is done; and thus, in all its minutiae, master home and home scenes. The foundation is now laid, broad and deep. The child can now go forth, see, understand, judge, and compare, and grow in knowledge, understandingly and practically, and in intellect, systematically and securely. All this is the work of the parent, and the parent who neglects it, fails in an important duty, and, so far as he fails, dwarfs the intellect and the moral capacity. What a responsibility for parents! Who is equal to the task? Who will not have been made better individually, by having, in the fear of God, performed it?

Teachers, your work commences in the school-room. You must take the child where the parent has left it, and if the parent has brought the work up to the point we have designated, your task will be a light one. But such is seldom the case. You must do the work of the parent to a great extent, if not entirely. And yet you

can not do it as it ought to be done. You can not go to the child-home and accomplish the work that the parent has failed to do. This would be treading on forbidden ground; going within the sanctity of the home circle, and becoming familiar with its minutiae, which the stranger is wisely not permitted to do. If the teacher knew more of the child at home—how it had been taught, or rather how it had *not* been taught—he would know better how to teach it at school, it is true; but there are limits to intimate acquaintances, which limits must not be transcended. Hence the teacher must commence his work in the school-room, and upon the same plans as home geography. Study and map the school-room with care and precision, and then the school-yard, if you are so fortunate as to have one. If your school-house is in a town or city, let that be the next object of investigation. If it is a large city, take the immediate neighborhood first, and then enlarge as each portion selected is thoroughly mastered; if a small town, the whole can be taken at once. If the school-house is in a rural district, go from the school-yard to the surrounding fields, from the fields to the forests, not by imagination, but in reality. Note the plants, flowers, trees, fences, rills, hills, and valleys, and when you return, require the pupils to draw a map of the excursion, and give a written description of all they have seen. Continue these excursions from time to time, until you have thoroughly investigated all the surrounding country within walking distance, and as much farther as you can secure conveyance.

Would that parents could see the folly of hoarding up corruptible treasures, and leaving their children to starve for the incorruptible! If they could, you would not want for means to carry on this wholesome work. In this manner toil on, and you will lay a basis on which to

build, not only a superstructure of extensive geographical knowledge, but you will also have prepared a solid foundation-stone upon which to erect the temple of intellectual culture. And last, but not least, you will have awakened a love for the study of nature, which will increase with increasing years, and incite investigation, such as a Newton possessed, which enabled him to look through nature, divine her laws, and read her statute-books to us.

There is also a physical benefit in this practical teaching. The rose of health which will bloom on your own cheek, as well as on the cheeks of your pupils, will repay a thousand-fold for all this labor.

The whole township, town, or city, and to some extent the county, may be surveyed and mapped in this manner, and the history, little by little, acquired; date of settlement, incidents of the red man, who dwelt there before the white; names and character of early settlers, periods of organization, and the ten thousand interesting reminiscences of the early day, which are always treasured up in the minds of the pioneer, and related, on long winter evenings, to his children and grandchildren, as they surround the cozy family hearth-stone, listening with profound interest and attention.

But the point of extent at last will be reached when practical investigation must cease, and the theoretical begin—when the imagination, which has already been most effectually trained, must come to your aid. If it be the township, city, or county, produce the map, and call the attention of the pupils to it. Give the general outline, and such items of history as you know to be beyond the reach of the class, and then set them to studying it, and gathering up such information as may

be within their reach. So far as it is necessary, assist them to assist themselves in obtaining the knowledge desired. Teach them to arrange, classify, and describe, and thus practically use all obtained.

In the immediate vicinity of the pupil's home, the minutiae can hardly be carried to too great an extent. As you go farther and farther from home, less and less attention should be given to it, until, finally, the minutiae should be dropped entirely, and generals only should receive attention. What interest is it for you or me to know just how many stones are in the front of the Tuilleries, or how many wires compose the frame-work of Niagara Suspension Bridge? These are facts, and to acquire them is to acquire knowledge; but of what use is that knowledge? There is too much to be learned in this brief life, which is of practical benefit, either to ourselves or to the world, to waste time on unimportant and useless facts.

Then throw away the cumbrous volumes of facts, which are all well enough in their places as facts, but which are of no practical benefit to us, and study home geography—township, town, city, county, and State—and when you are familiar with that State which is yours either by birth or by adoption, then go abroad in your own native land, the land of your forefathers, the pilgrim's home. Define its important localities, soils; productions, vegetable, animal, and mineral; its constitution, laws, customs, and habits; then, if you have time, you may cross the wide expanse of the ocean, and gather the few generals from the old world, which are valuable to you living in the new, as a public or private citizen, and thus become possessor of that knowledge which is necessary to make one easy, social, interesting, instructive,

and useful in society, and contented and happy at home.

He who drinks from nature's fountain,
Climbs upon the highest mountain,
Sips the great truths from out the vale,
And breathes them from the driving gale.

TO
ASHER AND ADAMS'
NEW CIVIL AND CONGRESSIONAL
TOWNSHIP MAP OF INDIANA.

GENERAL QUESTIONS.

1. How is Indiana bounded?
2. Name its capital.
3. Where is Indianapolis situated?
4. What is its latitude? What is its longitude?
5. When was Indianapolis laid out? Ans. 1821.
6. When did it become the seat of government? A. 1825.
7. From what is its name derived?
8. Name the five largest cities in Indiana in order.
9. Name its rivers. Lakes.
10. In what year was it settled? A. 1730.
11. By whom was it settled? A. The French.
12. At what place? A. Vincennes.
13. By whom was it originally inhabited? A. Miami confederacy of Indians.
14. When was it organized into a Territory? A. 1800.
15. Name its Territorial Governors in order. A. William Henry Harrison, John Gibson, and Thomas Posey.

16. When was it admitted into the Union? A. 1816.
17. How many square miles does it contain? A. 33,809.
18. Between what parallels of latitude does it lie? A. $37^{\circ} 51'$, $41^{\circ} 46'$, north.
19. Between what meridians of longitude does it lie? A. $84^{\circ} 40'$, $88^{\circ} 02'$, west.
20. How many acres of land in the State? A. 21,637,760.
21. How many acres of occupied land? A. 16,315,776.
22. How many acres of land improved? A. 8,161,717.
23. How many acres occupied and still unimproved? A. 8,154,059.
24. How many acres of land still unoccupied? A. 5,321,984.
25. What is the assessed valuation of real estate? A. \$291,829,992.
26. What is the assessed valuation of personal property? A. \$119,212,442.
27. What is the total value of both? A. \$411,042,424.
28. The true valuation of real estate and personal property? A. \$528,835,371.
29. What is the cash value of farms? A. \$344,902,776.
30. What are the products of the State?
31. What are its minerals?
32. In what section is coal-oil found?
33. How many miles of railroad? A. 2,126.
34. Name the different railroads.
35. How many mail routes? A. 333
36. Total length of mail routes? A. 7,960 miles
37. What canal passes through the State?

38. Total receipts to the Government? A. \$218,997.
39. Total expense to the Government? A. \$366,589.
40. About how many post-offices?
41. How many newspapers published in the State?
A. 186.
42. How many copies issued annually? A. 10,090,-
310.
43. How many Congressional Districts in the State?
A. 11.
44. How many counties in the State? A. 92.
45. How many townships? A. 974.
46. What is the difference between a Congressional Township and a Civil Township? A. A Congressional Township is a district six miles square, containing thirty-six square miles. A Civil Township contains sometimes more and sometimes less, arranged with reference to the convenience of the people.
47. What is the population of the State? A. 1,350,-
428.
48. How many persons to a square mile? A. 40.
49. How many acres to a person? A. 16.
50. Name the counties in the First Congressional District. Second. Third. Fourth. Fifth. Sixth. Seventh. Eighth. Ninth. Tenth. Eleventh.
51. What counties border on Michigan?
52. What on Lake Michigan?
53. What on Ohio?
54. What on the Ohio River?
55. What on Illinois?
56. Through what counties does the Wabash River run?
57. Through what counties does the west branch of White River run?
58. The east branch?

59. Name the Governors of Indiana. A. Jonathan Jennings, William Hendricks, James B. Ray, Noah Noble, David Wallace, Samuel Bigger, James Whitcomb, Joseph A. Wright, Ashbel P. Willard, Henry S. Lane, and O. P. Morton.

60. Name some of the most distinguished men.

61. What important battle was fought in this State?
A. Tippecanoe.

62. Who commanded the American army? A. General Harrison.

63. Against whom was it fought? A. Shawnee Indians.

64. Who was their chief? A. Tecumseh.

65. Was he present in the battle? A. No.

66. Who were victorious? A. Americans.

67. Near what city is this battle-ground? A. Lafayette.

68. Give a description of the battle.

69. When was the first provision made by law for Common Schools in Indiana? A. 1824.

70. Who was the first State Superintendent of Public Instruction? A. Wm. C. Larabee.

71. Name the others in their order. A. Caleb Mills, Samuel L. Rugg, Miles J. Fletcher, Samuel K. Hoshour, and G. W. Hoss.

72. What is the amount of the Common School Fund?
A. About ten millions.

73. How many colleges in the State?

74. When was the Asylum for the education of the Deaf and Dumb founded? A. January 15, 1844.

75. For the Insane? A. January 15, 1844.

76. For the Blind? A. January 13, 1845.

77. Where are these institutions located? A. At Indianapolis.

ADAMS COUNTY.

1. IN what part of the State is Adams County?
2. How is Adams County bounded?
3. In what Congressional District is it?
4. When was it organized? A. 1836.
5. How many square miles does it contain? A.
324.
6. What is its population?
7. What is its capital?
8. Where is it situated?
9. What is the population of Decatur?
10. What are its latitude and longitude?
11. When was Adams County settled?
12. Give the names of some of its early settlers.
13. What rivers in this county?
14. In what direction do they flow?
15. How many townships in this county?
16. Name them; beginning with the north-western
township.
17. Bound each one. Give the population of each.
18. Number of square miles.
19. Name the streams of water.
20. Describe its towns.
21. Draw a map of each township.
22. Draw a map of the county.

ALLEN COUNTY.

1. IN what part of the State is Allen County?
2. How is Allen County bounded?
3. When was it organized? A. 1824.
4. In what Congressional District is it?
5. After whom was it named? A. Colonel Wm. Allen of Kentucky.
6. How many square miles does it contain? A. 638
7. What is its population?
8. What is its capital?
9. What is the population of Fort Wayne?
10. What is the latitude, and what the longitude?
11. When was Allen County settled?
12. By whom was it settled?
13. What old fort in this county? A. Fort Wayne
14. By whom was it built? A. General Wayne.
15. When was it erected? A. 1794.
16. For what purpose was it built? A. Defense against the Miamis.
17. What two rivers in this county?
18. Where do they unite, and what do they form?
19. What railroads pass through this county?
20. What canal?
21. How many townships in this county?
22. Name them; beginning with the north-western township.
23. Bound each one. Give the population.
24. Number of square miles.
25. When settled, and by whom?
26. What proportion is cultivated, and what uncultivated?
27. Describe its towns, if it has any.
28. Lastly, draw a map of the county.

BARTHOLOMEW COUNTY.

1. In what part of the State is Bartholomew County?
2. Bound Bartholomew County.
3. After whom was it named? A. General Joseph Bartholomew.
4. In what Congressional District is it?
5. When was it organized? A. 1821.
6. How many square miles does it contain? A. 400.
7. What is its population?
8. What is its capital?
9. Where is it situated?
10. What is the population of Columbus?
11. What is its latitude and what the longitude?
12. When was Bartholomew County settled?
13. Name some of the early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. Give the population.
20. Number of square miles.
21. When settled?
22. By whom settled?
23. Name the streams of water.
24. Describe its towns.
25. Draw a map of each township.
26. Draw one of the county.

BENTON COUNTY.

1. In what part of the State is Benton County?
2. Bound it.
3. When was it organized? A. 1840.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 414.
6. What is its population?
7. What is its capital?
8. What is the population of Oxford?
9. Where is it situated?
10. What is the latitude of Oxford?
11. What the longitude?
12. When was Benton County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What mountains?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. Give the population.
20. Number of square miles.
21. When settled?
22. By whom settled?
23. Name the streams of water.
24. Describe its towns
25. Draw a map of each township.
26. Draw a map of the county.

BLACKFORD COUNTY.

1. IN what part of the State is Blackford County?
2. Bound Blackford County.
3. When was it organized? A. 1837.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 180.
6. What is its population?
7. What is its capital?
8. What is the population of Hartford?
9. Where is it situated?
10. What is the latitude of Hartford?
11. What the longitude?
12. When was Blackford County settled?
13. Name some of its early settlers.
14. What river in this county?
15. How many townships in it?
16. Name them; beginning with the north-western township.
17. Bound each township.
18. Give the population.
19. Number of square miles.
20. When settled?
21. By whom settled?
22. Name the streams of water.
23. Describe its towns.
24. Draw a map of each township.
25. Draw a map of the county.

BOONE COUNTY.

1. In what part of the State is Boone County?
2. When was it organized?
3. Bound Boone County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 418
6. What is its population?
7. What is its capital?
8. What is the population of Lebanon?
9. Where is it situated?
10. What is the latitude of Lebanon?
11. What the longitude?
12. When was Boone County settled?
13. Name some of its early settlers.
14. What railroads pass through this county?
15. What river in this county?
16. How many townships in it?
17. Name them; beginning with the north-wester township.
18. Bound each township.
19. Give the population.
20. Number of square miles.
21. When settled?
22. By whom settled?
23. Name the streams of water.
24. Describe its towns.
25. Draw a map of each township.
26. Draw a map of the county.

BROWN COUNTY.

1. In what part of the State is Brown County?
2. Bound Brown County.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. General Jacob Brown.
6. How many square miles does it contain? A. 320.
7. What is its population?
8. What is its capital?
9. What is the population of Nashville?
10. Where is it situated?
11. What is the latitude of Nashville?
12. What the longitude?
13. When was Brown County settled?
14. Name some of its early settlers.
15. What rivers in this county?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. Number of square miles?
20. When settled?
21. Give the population.
22. By whom settled?
23. Name the streams of water.
24. Describe its towns.
25. Draw a map of each township.
26. Draw a map of the county.

CARROLL COUNTY.

1. In what part of the State is Carroll County?
2. Bound Carroll County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 3
6. What is its population?
7. What is its capital?
8. What is the population of Delphi?
9. Where is it situated?
10. What is the latitude of Delphi?
11. What the longitude?
12. When was Carroll County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. What canal?
17. How many townships in it?
18. Name them; beginning with the north-west township.
19. Bound each township.
20. Number of square miles?
21. When settled?
22. By whom settled?
23. Give the population.
24. Name the streams of water.
25. Describe its towns.
26. Draw a map of each township.
27. Draw a map of the county.

CASS COUNTY.

1. In what part of the State is Cass County?
2. Bound Cass County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 420.
6. What is its population?
7. What is its capital?
8. What is the population of Logansport?
9. Where is it situated?
10. What is the latitude?
11. What the longitude?
12. When was Cass County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. What canal?
17. What river empties into the Wabash at Logansport?
18. How many townships in Cass County?
19. Name them; beginning with the north-western township.
20. Bound each township.
21. Number of square miles?
22. When settled?
23. By whom?
24. Give the population.
25. Name the streams of water.
26. Describe its towns.
27. Draw a map of each township.
28. Draw a map of the county.

CLARKE COUNTY.

1. In what part of the State is Clarke County
2. Bound Clarke County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A
6. What is its population?
7. What is its capital?
8. What is the population of Charlestown?
9. Where is it situated?
10. What is the latitude of Charlestown?
11. What the longitude?
12. What town in the southern part of the coun
13. What fort formerly on the site of Jefferson
- A. Fort Steuben.
14. When was it built? A. 1791.
15. What State institution located in Jeffersonvi
16. What United States institution?
17. When was Clark County settled?
18. What do you know of the early settlers?
19. What rivers in this county?
20. What railroads pass through it?
21. How many townships in Clarke County?
22. Name them; beginning with the north-w
23. Bound each township.
24. Number of square miles?
25. When settled?
26. By whom?
27. Give the population.
28. Name the streams of water.
29. Describe its towns.
30. Draw a map of each township.
31. Draw a map of the county.

CLAY COUNTY.

1. In what part of the State is Clay County?
2. Bound Clay County.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. Henry Clay.
6. How many square miles does it contain? A. 360.
7. What is its population?
8. What is its capital?
9. What is the population of Bowling Green?
10. In what part of the county is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Clay County settled?
14. Name some of its early inhabitants.
15. What rivers in this county?
16. What small lake in the western part?
17. What railroad passes through the north-western part?
18. How many townships in Clay County?
19. Name them; beginning with the north-western township.
20. Bound each township.
21. Number of square miles?
22. When settled?
23. By whom?
24. Give the population.
25. Name the streams of water.
26. Describe its towns.
27. Draw a map of each township.
28. Draw a map of the county.

CLINTON COUNTY.

1. In what part of the State is Clinton County
2. Bound Clinton County.
3. In what Congressional District is it?
4. How many square miles does it contain? A
5. When was it organized?
6. What is its population?
7. What is its capital?
8. What is the population of Frankfort?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Clinton County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. How many townships in it?
16. Name them; beginning with the north-w
township.
17. Bound each township.
18. Number of square miles?
19. When settled?
20. By whom?
21. Give the population.
22. Describe its towns.
23. Draw a map of each township.
24. Draw a map of the county.

CRAWFORD COUNTY.

1. In what part of the State is Crawford County?
2. When was it organized?
3. Bound Crawford County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 280.
6. What is its population?
7. What is its capital?
8. What is the population of Leavenworth?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Crawford County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What river on the east?
16. What is the chief object of attraction in this county? A. The Wyandotte Cave.
17. By whom is it owned? A. By H. P. Rothrock.
18. In what part of the county is it?
19. In what township?
20. On what river? A. Great Blue River.
21. How many feet above the river is its mouth? A. 120.
22. How far has this cave been explored? A. 19 miles.
23. What is the greatest height of the cave? A. 245 feet.
24. Greatest breadth? A. 300 feet.
25. How many townships in Crawford County?
26. Name them; beginning with the north-western township.
27. Bound each township.

DAVIS COUNTY.

1. In what part of the State is Davis County?
2. Bound Davis County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Washington?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Davis County settled?
13. Name some of its early settlers.
14. What are the rivers in this county?
15. What river forms its southern boundary?
16. What its western?
17. Where do these rivers unite?
18. What railroad passes through this county?
19. How many townships in this county?
20. Name them; beginning with the north township.
21. Bound each township.
22. Number of square miles?
23. When settled?
24. By whom?
25. Give the population.
26. Describe its towns.
27. Draw a map of each township.
28. Draw a map of the county.

DEARBORN COUNTY.

1. IN what part of the State is Dearborn County?
2. How is it bounded?
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 291.
6. What is its population?
7. What is its capital?
8. What is the population of Lawrenceburg?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Dearborn County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. In what direction do they run?
16. What river in the north-eastern part of the county?
17. What creek forms its southern boundary?
18. What railroads pass through this county?
19. How many townships in it?
20. Name them; beginning with the north-western township.
21. Number of square miles in each?
22. When settled?
23. By whom?
24. Give the population.
25. Describe its towns.
26. Draw a map of each township.
27. Draw a map of the county.

DECATUR COUNTY.

1. IN what part of the State is Decatur County?
2. How is it bounded?
3. How many square miles does it contain? A
4. In what Congressional District is it?
5. When was it organized?
6. What is its capital?
7. What is the population of Greensburg?
8. Where is it situated?
9. What is its latitude?
10. What is its longitude?
11. When was Decatur County settled?
12. Name some of its early settlers.
13. Name its rivers.
14. What railroad passes through this county?
15. How many townships in this county?
16. Name them; beginning with the north-
township.
17. Number of square miles?
18. When settled?
19. By whom settled?
20. Give the population.
21. Describe its towns
22. Name the streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

DE KALB COUNTY.

1. In what part of the State is De Kalb County?
2. Bound De Kalb County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 346.
6. What is its capital?
7. What is the population of Auburn?
8. Where is it situated?
9. What is its latitude?
10. What is its longitude?
11. When was De Kalb County settled?
12. Name some of its early settlers.
13. Name its rivers.
14. What railroad passes through this county?
15. How many townships in it?
16. Name them; beginning with the north-western township.
17. Number of square miles?
18. When settled?
19. By whom?
20. Give its population.
21. Describe its towns.
22. Name the streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

DELAWARE COUNTY.

1. In what part of the State is Delaware County?
2. When was it organized?
3. Bound Delaware County.
4. After whom was it named? A. Delaware Indian.
5. In what Congressional District is it?
6. How many square miles does it contain? A.
7. What is its capital?
8. What is the population of Muncie?
9. After whom was it named? A. An Indian.
10. Where is it situated?
11. What is the latitude of Muncie?
12. What the longitude?
13. When was Delaware County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What railroad passes through this county?
17. How many townships in it?
18. Name them; beginning with the north-west township.
19. Number of square miles in each?
20. When settled?
21. By whom settled?
22. Give its population.
23. Describe its towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

DUBOIS COUNTY.

1. In what part of the State is Dubois County?
2. Bound Dubois County.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. Tourissant Dubois.
6. How many square miles does it contain? A. 420.
7. What is its population?
8. What is its capital?
9. What is the population of Jasper?
10. Where is it situated?
11. What is its latitude?
12. What the longitude?
13. When was Dubois County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What river forms the northern boundary?
17. What lake near Jasper?
18. What one in the western part of the county?
19. How many townships in this county?
20. Name them; beginning with the north-western township.
21. Number of square miles in each?
22. When settled?
23. By whom settled?
24. Give the population.
25. Describe its towns.
26. Draw a map of each township.
27. Draw a map of the county.

ELKHART COUNTY.

1. In what part of the State is Elkhart County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Goshen?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Elkhart County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What lakes in this county?
16. What railroads pass through it?
17. How many townships in this county?
18. Name them; beginning with the north-west township.
19. Number of square miles in each?
20. When settled?
21. By whom settled?
22. Give the population.
23. Describe the towns.
24. Draw a map of each township.
25. Draw a map of the county.

FAYETTE COUNTY.

1. In what part of the State is Fayette County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 200.
6. What is its population?
7. What is its capital?
8. What is the population of Connersville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. After whom was it named? A. Judge Conner.
13. When was Fayette County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What railroad passes through this county?
17. What canal?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When settled?
22. By whom settled?
23. Give the population.
24. Draw a map of each township.
25. Draw a map of the county.

FLOYD COUNTY.

1. In what part of the State is Floyd County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A
- 148.
6. What is its population?
7. What is its capital?
8. What is the population of New Albany?
9. On what river is it?
10. For what is it noted?
11. What is its latitude?
12. What is its longitude?
13. When was Floyd County settled?
14. Name some of the early settlers.
15. Name its rivers.
16. What railroad passes through this county?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When settled?
21. By whom settled?
22. Give the population.
23. Draw a map of each township.
24. Draw a map of the county.

FOUNTAIN COUNTY.

1. In what part of the State is Fountain County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Covington?
9. On what river is it?
10. What is its latitude?
11. What is its longitude?
12. When was Fountain County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What river forms the northern and western boundary?
16. What canal passes along this river?
17. What railroad passes through the northern part of the county?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When and by whom settled?
22. Give the population.
23. Draw a map of each township.
24. Draw a map of the county.

FRANKLIN COUNTY.

1. IN what part of the State is Franklin County?
2. Bound Franklin County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 380
6. What is its population?
7. What is its capital?
8. What is the population of Brookville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What college located at Brookville?
13. When was Franklin County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What canal passes through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe its towns.
23. Draw a map of each township.
24. Draw a map of the county.

FULTON COUNTY.

1. In what part of the State is Fulton County?
2. Bound Fulton County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? **A. 360.**
6. What is its population?
7. What is its capital?
8. What is the population of Rochester?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Fulton County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What lake near Rochester?
16. What lake in the western part of the county?
17. What railroad passes through it, partially completed?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When and by whom settled?
22. Give the population.
23. Describe its towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

GIBSON COUNTY.

1. In what part of the State is Gibson County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 449.
6. What is its population?
7. What is its capital?
8. What is the population of Princeton?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Gibson County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What river forms the northern boundary? What the western?
16. What lake in the south-eastern part?
17. What railroad passes through it?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When and by whom settled?
22. Give the population.
23. Describe the towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

GRANT COUNTY.

1. In what part of the State is Grant County?
2. How is Grant County bounded?
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. Two brothers named Grant, killed in battle with the Indians.
6. How many square miles does it contain? A. 420.
7. What is its population?
8. What is its capital?
9. What is the population of Marion?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Grant County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What railroad, partly finished, passes through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

GREENE COUNTY.

1. In what part of the State is Greene County?
2. Bound Greene County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 540.
6. What is its population?
7. What is its capital?
8. What is the population of Bloomfield?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Greene County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. How many townships in it?
16. Name them; beginning with the north-western township.
17. Number of square miles in each?
18. When and by whom settled?
19. Give the population.
20. Describe the towns.
21. Name the streams of water.
22. Draw a map of each township.
23. Draw a map of the county.

HAMILTON COUNTY.

1. In what part of the State is Hamilton County?
2. Bound Hamilton County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Noblesville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Hamilton County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What railroad passes through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Number of square miles in each?
19. When and by whom settled?
20. Give the population.
21. Describe the towns.
22. Name the streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

HANCOCK COUNTY.

1. IN what part of the State is Hancock County?
2. When was it organized?
3. Bound it.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 312
6. What is its population?
7. What is its capital?
8. What is the population of Greenfield?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Hancock County settled?
13. Name some of its early settlers.
14. What are the rivers in this county?
15. What railroad passes through the north-western part?
16. What railroad passes through the central part?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

HARRISON COUNTY.

1. IN what part of the State is Harrison County?
2. When was it organized?
3. Bound it.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 475.
6. What is its population?
7. What is its capital?
8. What is the population of Corydon?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Harrison County settled?
13. Name some of its early settlers.
14. What are the rivers in this county?
15. What river forms part of the western boundary?
16. What the southern?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

HENDRICKS COUNTY.

1. In what part of the State is Hendricks County?
2. When was it organized?
3. Bound it.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 300
6. What is its population?
7. What is its capital?
8. What is the population of Danville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Hendricks County settled?
13. Name some of its early settlers.
14. What are the rivers in this county?
15. What railroad passes through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Number of square miles in each?
19. When and by whom settled?
20. Give the population.
21. Describe the towns.
22. Name the streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

HENRY COUNTY.

1. In what part of the State is Henry County?
2. When was it organized?
3. Bound Henry County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 385
6. What is its population?
7. What is its capital?
8. What is the population of Newcastle?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Henry County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Number of square miles in each?
19. When and by whom settled?
20. Give the population.
21. Describe the towns.
22. Name the streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

HOWARD COUNTY.

1. In what part of the State is Howard County?
2. When was it organized?
3. Bound Howard County.
4. After whom was it named? A. General A. F. Howard.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 273.
7. What is its population?
8. What is its capital?
9. What is the population of Kokomo?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Howard County settled?
14. Name some of its early settlers.
15. What river in this county?
16. What two railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

HUNTINGTON COUNTY.

1. IN what part of the State is Huntington County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 389.
6. What is its population?
7. What is its capital?
8. What is the population of Huntington?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Huntington County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What two unite near Huntington?
16. What railroad passes through the county?
17. What canal?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When and by whom settled?
22. Give the population.
23. Describe the towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

JACKSON COUNTY.

1. In what part of the State is Jackson County?
2. When was it organized?
3. Bound Jackson County.
4. In what Congressional District is it?
5. How many square miles does it contain? A.
6. What is its population?
7. What is its capital?
8. What is the population of Brownstown?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Jackson County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What river forms the southern boundary?
16. What railroad in this county?
17. How many townships?
18. Name them; beginning with the north-west township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

JASPER COUNTY.

1. In what part of the State is Jasper County?
2. When was it organized?
3. Bound Jasper County.
4. In what Congressional District is it?
5. How many square miles does it contain? A.
6. What is its population?
7. What is its capital?
8. What is the population of Rensselaer?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Jasper County settled?
13. Name some of its early settlers.
14. What river in this county?
15. What river forms the northern boundary?
16. What railroad passes through this county?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe its towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

JAY COUNTY.

1. IN what part of the State is Jay County?
2. Bound Jay County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Courtland?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Jay County settled?
13. Name some of its early settlers.
14. What college in this county?
15. Where is it located?
16. What river?
17. How many townships in it?
18. Name them; beginning with the north township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population of each.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

JEFFERSON COUNTY.

1. In what part of the State is Jefferson County?
2. When was it organized?
3. Bound Jefferson County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 362.
6. What is its population?
7. What is its capital?
8. What is the population of Madison?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What college near Madison?
13. When was Jefferson County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What river forms its southern boundary?
17. What railroad passes through it?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Number of square miles in each?
21. When and by whom settled?
22. Give the population of each.
23. Describe the towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

JENNINGS COUNTY.

1. In what part of the State is Jennings County?
2. When was it organized?
3. Bound Jennings County.
4. After whom was it named? A. Jonathan Jennings, first Governor of the State.
5. In what Congressional District is it?
6. How many square miles does it contain? A
7. What is its population?
8. What is its capital?
9. What is the population of Vernon?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Jennings County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-west township.
19. Number of square miles in each?
20. When and by whom settled?
21. Give the population of each.
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

JOHNSON COUNTY.

1. In what part of the State is Johnson County?
2. When was it organized?
3. Bound Johnson County.
4. After whom was it named? A. John Johnson, Judge of the Supreme Court.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 320.
7. What is its population?
8. What is its capital?
9. What is the population of Franklin?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Johnson County settled?
14. Name some of its early settlers.
15. What rivers in this county?
16. What railroads pass through it?
17. What college at Franklin?
18. What academy four miles west of Franklin?
19. How many townships in this county?
20. Name them; beginning with the north-western township.
21. What is the population of each?
22. Number of square miles in each?
23. When and by whom settled?
24. Describe the towns.
25. Name the streams of water.
26. Draw a map of each township.
27. Draw a map of the county.

KNOX COUNTY.

1. In what part of the State is Knox County?
2. When was it organized?
3. Bound Knox County.
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Vincennes?
9. Upon what river is it situated?
10. What is its latitude?
11. What is its longitude?
12. What university located here?
13. When was Knox County settled? A. 175
14. Name some of its early settlers.
15. What rivers in this county?
16. What river forms the eastern boundary?
17. What the southern?
18. What the western?
19. What lakes in this county?
20. What railroads pass through it?
21. How many townships in this county?
22. Name them; beginning with the north-township.
23. Number of square miles in each?
24. When and by whom settled?
25. Give the population of each.
26. Describe the towns.
27. Name the streams of water.
28. Draw a map of each township.
29. Draw a map of the county.

KOSCIUSKO COUNTY.

1. In what part of the State is Kosciusko County?
2. When was it organized?
3. Bound Kosciusko County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 588
6. What is its population?
7. What is its capital?
8. What is the population of Warsaw?
9. Between what two lakes is it built?
10. What is its latitude?
11. What is its longitude?
12. When was Kosciusko County settled?
13. Name some of its early settlers.
14. Name the rivers of the county.
15. What river rises in this county?
16. For what is this river noted?
17. How many small lakes in this county?
18. What railroad passes through it?
19. How many townships in it?
20. Name them; beginning with the north-western township.
21. Number of square miles in each?
22. What is the population?
23. When and by whom settled?
24. Describe the towns.
25. Name the streams of water.
26. Draw a map of each township.
27. Draw a map of the county.

LAGRANGE COUNTY.

1. IN what part of the State is Lagrange County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Lagrange?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Lagrange County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. How many small lakes?
16. Give the names of the larger.
17. How many townships in it?
18. Name them; beginning with the north-township.
19. When and by whom settled?
20. Number of square miles in each?
21. What is the population of each?
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

LAKE COUNTY.

1. In what part of the State is Lake County?
2. Bound Lake County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A.
480.
6. What is its population?
7. What is its capital?
8. What is the population of Crown Point?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Lake County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What lake on the north?
16. What river on the south?
17. What railroads pass through it?
18. How many townships in it?
19. Name them; beginning with the north-western
township.
20. How many square miles in each?
21. What is the population of each?
22. When and by whom settled?
23. Describe the towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

LAPORTE COUNTY.

1. In what part of the State is Laporte County?
2. When was it organized?
3. Bound Laporte County.
4. In what Congressional District is it?
5. How many square miles does it contain?
450.
6. What is its population?
7. What is its capital?
8. What is the population of Laporte?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What lakes near it?
13. When was Laporte County settled?
14. Name some of its early settlers.
15. What rivers in this county?
16. What river forms part of the southern boundary?
17. What lake on the north-west?
18. What town on Lake Michigan?
19. What railroad passes through this county?
20. How many townships in it?
21. Name them; beginning with the north-west township.
22. How many square miles in each?
23. When and by whom settled?
24. What is the population of each?
25. Describe the towns.
26. Name the small streams of water.
27. Draw a map of each township.
28. Draw a map of the county.

LAWRENCE COUNTY.

1. In what part of the State is Lawrence County?
2. When was it organized?
3. Bound Lawrence County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 444.
6. What is its population?
7. What is its capital?
8. What is the population of Bedford?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Lawrence County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What railroads pass through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. How many square miles in each?
19. When and by whom settled?
20. What is the population of each?
21. Describe the towns.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

MADISON COUNTY.

1. In what part of the State is Madison County?
2. Bound Madison County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400
6. What is its population?
7. What is its capital?
8. What is the population of Anderson?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. After whom was it named?
13. When was Madison County settled?
14. Name some of its early settlers.
15. What rivers in Madison County?
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. What is the population of each?
21. When and by whom settled?
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

MARION COUNTY.

1. In what part of the State is Marion County?
2. Bound Marion County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 420.
6. What is its population?
7. What is its capital?
8. What is the population of Indianapolis?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Marion County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. How many, and what railroads center at Indianapolis?
16. What university and charitable institution located at Indianapolis?
17. Name them.
18. How many townships in Marion County?
19. Name them; beginning with the north-western township.
20. What is the population of each?
21. How many square miles in each?
22. When and by whom settled?
23. Describe the towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

MARSHALL COUNTY.

1. In what part of the State is Marshall County?
2. When was it organized?
3. Bound Marshall County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 440
6. What is its population?
7. What is its capital?
8. What is the population of Plymouth?
9. Where is Plymouth situated?
10. What is its latitude?
11. What is its longitude?
12. When was Marshall County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What lake in the south-western part?
16. What in the northern?
17. What railroads pass through the county?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. How many square miles in each?
21. What is the population of each.
22. When and by whom settled?
23. Describe the towns.
24. Name the small streams of water.
25. Draw a map of each township
26. Draw a map of the county.

MARTIN COUNTY.

1. In what part of the State is Martin County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. Major Martin, of Kentucky.
6. How many square miles does it contain? A. 340.
7. What is its population?
8. What is its capital?
9. What is the population of Doverhill?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Martin County settled?
14. Name some of its early settlers.
15. Name its rivers.
16. What railroad passes through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. What is the population of each?
21. When and by whom settled?
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

MIAMI COUNTY.

1. In what part of the State is Miami County?
2. Bound Miami County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 384.
6. What is its population?
7. What is its capital?
8. What is the population of Peru?
9. What is its latitude?
10. What is its longitude?
11. On what river is it situated?
12. When was Miami County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. What canal?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. What is the population of each?
21. When and by whom settled?
22. Describe the towns.
23. Name the streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

MONROE COUNTY.

1. In what part of the State is Monroe County?
2. Bound Monroe County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 420.
6. What is its population?
7. What is its capital?
8. What is the population of Bloomington?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What university located at Bloomington?
13. When was Monroe County settled?
14. Name some of the early settlers.
15. What rivers in this county?
16. What railroad passes through it?
17. What river touches the north-western corner of the county?
18. How many townships in this county?
19. Name them; beginning with the north-western township.
20. How many square miles in each?
21. What is the population of each?
22. When and by whom settled?
23. Describe the towns.
24. Name the streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

MONTGOMERY COUNTY.

1. In what part of the State is Montgomery County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 500
6. What is its population?
7. What is its capital?
8. What is the population of Crawfordsville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What college located here?
13. When was Montgomery County settled?
14. Name some of the early settlers.
15. What rivers in this county?
16. What railroad passes through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. When and by whom settled?
20. How many square miles in each?
21. Give the population of each.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

MORGAN COUNTY.

1. In what part of the State is Morgan County?
2. Bound it.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 540.
6. What is its population?
7. What is its capital?
8. What is the population of Martinsville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Morgan County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroad?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. When and by whom settled?
19. How many square miles in each?
20. Give the population of each.
21. Describe the towns.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

NEWTON COUNTY.

1. In what part of the State is Newton County?
2. When was it organized?
3. Bound Newton County.
4. In what Congressional District is it?
5. What is its population?
6. How many square miles does it contain? A. 430.
7. What is its capital?
8. What is the population of Kent?
9. What is its latitude?
10. What is its longitude?
11. When was Newton County settled?
12. Name some of its early settlers.
13. What river in this county?
14. What railroad passes through the southern part?
15. What lake in the north-west?
16. How many townships in this county?
17. Name them; beginning with the north-western township.
18. How many square miles in each?
19. Give the population.
20. When and by whom settled?
21. Describe the towns.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

NOBLE COUNTY.

1. In what part of the State is Noble County?
2. Bound Noble County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain?
6. What is its population?
7. What is its capital?
8. What is the population of Albion?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Noble County settled?
13. Name some of the early settlers.
14. Name the rivers and lakes.
15. What railroad passes through it?
16. What towns situated on the railroad?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. What is the population of each?
21. Describe the towns.
22. Draw a map of each township.
23. Draw a map of the county.

OHIO COUNTY.

1. In what part of the State is Ohio County?
2. Bound Ohio County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 90.
6. What is the population?
7. What is the capital?
8. What is the population of Rising Sun?
9. What is its latitude?
10. What is its longitude?
11. On what river is it situated.
12. When was Ohio County settled?
13. Name some of its early settlers.
14. What river on the east?
15. Are there any rivers in this county?
16. What creek bounds the county on the north?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. When and by whom settled?
21. Give the population.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

ORANGE COUNTY.

1. In what part of the State is Orange County?
2. When was it organized?
3. Bound Orange County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Paoli?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Orange County settled?
13. Name some of the early settlers.
14. Name its rivers.
15. What railroad passes through this county?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. How many square miles in each?
19. When and by whom settled?
20. What is the population of each?
21. What small streams in each?
22. Draw a map of each township.
23. Draw a map of the county.

OWEN COUNTY.

1. In what part of the State is Owen County?
2. When was it organized?
3. Bound Owen County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Spencer?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Owen County settled?
13. Name some of its early settlers.
14. Name its rivers.
15. What railroad passes through the north-eastern part?
16. How many townships in this county?
17. Name them; beginning with the north-western township.
18. How many square miles in each?
19. What is the population of each?
20. When and by whom settled?
21. Describe the towns.
22. Name the small streams.
23. Draw a map of each township.
24. Draw a map of the county.

PARKE COUNTY.

1. In what part of the State is Parke County?
2. Bound Parke County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 440.
6. What is its population?
7. What is its capital?
8. What is the population of Rockville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Parke County settled?
13. Name some of the early settlers.
14. Name its rivers.
15. What river and canal on the west?
16. What railroad in this county?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. When and by whom settled?
21. Give the population of each.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

PERRY COUNTY.

1. In what part of the State is Perry County?
2. Bound Perry County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 450.
6. What is its population?
7. What is its capital?
8. What is the population of Cannelton?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What other towns on the Ohio River?
13. When was Perry County settled?
14. Name some of the early settlers.
15. What river forms the eastern and southern boundaries?
16. What river the western?
17. Name the rivers of the county.
18. How many townships in the county?
19. Name them; beginning with the north-western township.
20. How many square miles in each?
21. What is the population of each?
22. When and by whom settled?
23. Describe the towns.
24. Draw a map of each township.
25. Draw a map of the county.

PIKE COUNTY.

1. In what part of the State is Pike County?
2. Bound Pike County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 300.
6. What is its population?
7. What is its capital?
8. What is the population of Petersburg?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Pike County settled?
13. Name some of the early settlers.
14. Name its rivers.
15. What river on the north?
16. What canal passes through it?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. What is the population of each?
21. When and by whom settled?
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

PORTER COUNTY.

1. In what part of the State is Porter County?
2. Bound Porter County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Valparaiso?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Porter County settled?
13. Name some of its early settlers.
14. What lake on the north of this county?
15. What river on the south?
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. Bound each one.
21. When and by whom settled?
22. Give the population.
23. Name the streams of water.
24. Draw a map of each township
25. Draw a map of the county.

POSEY COUNTY.

1. In what part of the State is Posey County?
2. When was it organized?
3. Bound Posey County.
4. After whom was it named? A. General Posey.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 300.
7. What is its population?
8. What is its capital?
9. What is the population of Mount Vernon?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Posey County settled?
14. Name some of the early settlers.
15. What river on the west of this county?
16. What river on the south?
17. What rivers in the county?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. How many square miles in each?
21. Bound each one.
22. Give the population.
23. When and by whom settled?
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

PULASKI COUNTY.

1. In what part of the State is Pulaski County?
2. Bound Pulaski County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 430.
6. What is its population?
7. What is its capital?
8. What is the population of Winamac?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Pulaski County settled?
13. Name some of the early settlers.
14. What river in this county?
15. What railroad passes through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. How many square miles in each?
19. What is the population?
20. When and by whom settled?
21. Bound each one.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

PUTNAM COUNTY.

1. In what part of the State is Putnam County?
2. Bound Putnam County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 486.
6. What is its population?
7. What is its capital?
8. What is the population of Greencastle?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What university in Greencastle?
13. When was Putnam County settled?
14. Name some of the early settlers.
15. What rivers in this county?
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. What is the population of each.
20. When and by whom settled?
21. Bound each one.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

RANDOLPH COUNTY.

1. IN what part of the State is Randolph County?
2. When was it organized?
3. Bound Randolph County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 440.
6. What is its population?
7. What is its capital?
8. What is the population of Winchester?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What town in the eastern part of the county?
13. When was Randolph County settled?
14. Name some of the early settlers.
15. What river in this county?
16. What railroad passes through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. Bound each one.
21. Give the population of each.
22. When and by whom settled?
23. Describe the towns.
24. Name the small streams of water
25. Draw a map of each township.
26. Draw a map of the county.

RIPLEY COUNTY.

1. In what part of the State is Ripley County?
2. Bound Ripley County.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. General Ripley.
6. How many square miles does it contain? A. 450.
7. What is its population?
8. What is its capital?
9. What is the population of Versailles?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Ripley County settled?
14. Name some of its early settlers.
15. What river in this county.
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. Bound each one.
21. When and by whom settled?
22. Describe the towns.
23. Give the population.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

RUSH COUNTY.

1. In what part of the State is Rush County?
2. When was it organized?
3. Bound Rush County.
4. After whom was it named? A. Dr. Benjamin Rush.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 410.
7. What is its population?
8. What is its capital?
9. What is the population of Rushville?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was it settled?
14. Name some of the early settlers.
15. What river in this county?
16. What railroad?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. Bound each one.
20. How many square miles in each?
21. When and by whom settled?
22. What is the population of each?
23. Describe the small towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

SCOTT COUNTY.

1. In what part of the State is Scott County?
 2. Bound Scott County.
 3. When was it organized?
 4. In what Congressional District is it?
 5. How many square miles does it contain? A.
- 180.
6. What is its population?
 7. What is its capital?
 8. What is the population of Lexington?
 9. Where is it situated?
 10. What is its latitude?
 11. What is its longitude?
 12. When was Scott County settled?
 13. Name some of the early settlers.
 14. What river in this county?
 15. What railroad passes through it?
 16. How many townships in it?
 17. How many square miles in each?
 18. Bound each one.
 19. Give the population.
 20. When and by whom settled?
 21. Describe the towns.
 22. Name the small streams of water.
 23. Draw a map of each township.
 24. Draw a map of the county.

SHELBY COUNTY.

1. In what part of the State is Shelby County?
2. Bound Shelby County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A.
400.
6. What is its population?
7. What is its capital?
8. What is the population of Shelbyville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Shelby County settled?
13. Name some of its early settlers.
14. What rivers in this county?
15. What railroads pass through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. How many square miles in each?
20. When and by whom settled?
21. Give the population.
22. Describe the small towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

SPENCER COUNTY.

1. In what part of the State is Spencer County?
2. Bound Spencer County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 300.
6. What is its population?
7. What is its capital?
8. What is the population of Rockport?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Spencer County settled?
13. Name some of the early settlers.
14. What rivers in Spencer county?
15. What one on the east?
16. What on the south?
17. What on the west?
18. How many townships in it?
19. Bound each one.
20. Give the square miles.
21. What is the population of each?
22. When and by whom settled?
23. Describe the small towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

STARKE COUNTY.

1. In what part of the State is Starke County?
2. Bound Starke County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 432.
6. What is its population?
7. What is its capital?
8. What is the population of Knox?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Starke County settled?
13. Name some of its early settlers.
14. What river runs through this county?
15. What railroads pass through it?
16. What lake in it?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. Bound each one.
20. Give the population of each.
21. Give the number of square miles.
22. When and by whom settled?
23. Describe the small towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

ST. JOSEPH COUNTY.

1. In what part of the State is St. Joseph County?
2. Bound St. Joseph County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 470.
6. What is its population?
7. What is its capital?
8. What is the population of South Bend?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was St. Joseph County settled?
13. Name some of the early settlers.
14. What river in this county?
15. What railroads pass through it?
16. How many townships in it?
17. Bound each township.
18. How many square miles in each?
19. When and by whom settled?
20. What is the population of each?
21. Describe the towns.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

Emeline Fairbanks Mem. Library

STEUBEN COUNTY.

1. IN what part of the State is Steuben County?
2. Bound Steuben County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 314.
6. What is its population?
7. What is its capital?
8. What is the population of Angola?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Steuben County settled?
13. Name some of the early settlers.
14. What river in this county?
15. What lakes?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each one.
19. Give the number of square miles.
20. Give the population.
21. When and by whom settled?
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

SULLIVAN COUNTY.

1. In what part of the State is Sullivan County?
2. When was it organized?
3. Bound Sullivan County.
4. After whom was it named? A. Daniel Sullivan.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 430.
7. What is its population?
8. What is its capital?
9. What is the population of Sullivan?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Sullivan County settled?
14. Name some of the early settlers.
15. What river in this county?
16. What river on the west?
17. What railroad passes through it?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Bound each one.
21. What is the population of each?
22. Give the number of square miles.
23. Describe the towns.
24. Name the small streams of water.
25. Draw a map of each township.
26. Draw a map of the county.

SWITZERLAND COUNTY.

1. In what part of the State is Switzerland County?
2. When was it organized?
3. Bound Switzerland County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 220
6. What is its population?
7. What is its capital?
8. What is the population of Vevay?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When and by whom was Switzerland County settled? A. By the Swiss, in 1802.
13. Name some of the early settlers.
14. Name the rivers.
15. What river on the east and south?
16. How many townships in this county?
17. Name them; beginning with the north-western township.
18. Bound each one.
19. Give the population.
20. How many square miles in each?
21. Describe the towns.
22. Name the small streams of water.
23. Draw a map of each township.
24. Draw a map of the county.

TIPPECANOE COUNTY.

1. IN what part of the State is Tippecanoe County?
2. Bound Tippecanoe County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 500.
6. What is its population?
7. What is its capital?
8. What is the population of Lafayette?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Tippecanoe County settled?
13. Name some of the early settlers.
14. What battle-ground in this county?
15. What river runs through this county?
16. What canal?
17. What railroads?
18. How many townships in this county?
19. Name them; beginning with the north-western township.
20. Bound each one.
21. Give the population.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

TIPTON COUNTY.

1. In what part of the State is Tipton County?
2. Bound Tipton County.
3. When was it organized?
4. In what Congressional District is it?
5. After whom was it named? A. General John Tipton.
6. How many square miles does it contain? A. 250.
7. What is its population?
8. What is its capital?
9. What is the population of Tipton?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Tipton County settled?
14. Name some of the early settlers.
15. What two rivers rise in this county?
16. What railroads pass through it?
17. How many townships in it?
18. Name them; beginning with the north-western township.
19. How many square miles in each?
20. Bound each one.
21. Give the population.
22. Describe the towns.
23. Name the small streams of water.
24. Draw a map of each township.
25. Draw a map of the county.

UNION COUNTY.

1. In what part of the State is Union County?
2. Bound Union County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 168.
6. What is its population?
7. What is its capital?
8. What is the population of Liberty
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What river in this county?
13. What railroad?
14. When was Union County settled?
15. Name some of its early settlers.
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. Give the number of square miles.
20. Give the population.
21. Name the streams of water.
22. Describe the towns.
23. Draw a map of each township.
24. Draw a map of the county.

VANDERBURGH COUNTY.

1. IN what part of the State is Vanderburgh County?
2. When was it organized?
3. Bound Vanderburgh County.
4. After whom was it named? A. Henry Vanderburgh.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 216.
7. What is its population?
8. What is its capital?
9. What is the population of Evansville?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Vanderburgh County settled?
14. Name some of its early settlers.
15. What are its rivers?
16. What canal passes through it?
17. What railroad?
18. What river on the south?
19. How many townships in this county? •
20. Name them; beginning with the north-western township.
21. Bound each township.
22. Give the population.
23. Number of square miles.
24. When and by whom settled?
25. Name the small streams of water.
26. Describe the towns.
27. Draw a map of each township.
28. Draw a map of the county.

VERMILION COUNTY.

1. IN what part of the State is Vermilion County?
2. When was it organized?
3. Bound Vermilion County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 290.
6. What is its population?
7. What is its capital?
8. What is the population of Newport?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Vermilion County settled?
13. Name some of the early settlers.
14. What river in Vermilion County?
15. What river on the east?
16. How many townships in this county?
17. Name them; beginning with the north-western township.
18. Bound each township.
19. Give the number of square miles.
20. What is the population of each?
21. When and by whom settled?
22. Name the small streams of water.
23. Describe the towns.
24. Draw a map of each township.
25. Draw a map of the county.

VIGO COUNTY. •

1. In what part of the State is Vigo County?
2. When was it organized?
3. Bound Vigo County.
4. After whom was it named? A. General Francis Vigo.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 400.
7. What is its population?
8. What is its capital?
9. What is the population of Terre Haute?
10. Where is it situated?
11. What is its latitude?
12. What is its longitude?
13. When was Vigo County settled?
14. Name some of the early settlers.
15. What river runs through this county?
16. What railroad passes through it?
17. What canal?
18. What rivers in the county?
19. How many townships in it?
20. Name them; beginning with the north-western township.
21. Bound each township.
22. Give the population.
23. When and by whom settled?
24. Number of square miles.
25. Name the small streams of water
26. Draw a map of each township.
27. Draw a map of the county.

WABASH COUNTY.

1. IN what part of the State is Wabash County?
2. When was it organized?
3. Bound Wabash County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 420.
6. What is its population?
7. What is its capital?
8. What is the population of Wabash?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Wabash County settled?
13. Name some of the early settlers.
14. What river runs through the county?
15. What was its Indian name? A. Ouabache.
16. What railroad passes through it?
17. What canal?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. Bound each township
21. How many square miles in each?
22. Give the population of each.
23. When and by whom settled?
24. Name the small streams of water.
25. Describe the towns.
26. Draw a map of each township.
27. Draw a map of the county.

WARREN COUNTY.

1. In what part of the State is Warren County?
2. When was it organized?
3. Bound Warren County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 364.
6. What is its population?
7. What is its capital?
8. What is the population of Williamsport?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Warren County settled?
13. Name some of the early settlers.
14. What are its rivers?
15. What railroad passes through it?
16. What river runs through it?
17. What canal?
18. How many townships in this county?
19. Name them; beginning with the north-western township.
20. Bound each one.
21. Give the population.
22. Number of square miles.
23. When and by whom settled?
24. Name the small streams of water.
25. Describe the towns.
26. Draw a map of each township.
27. Draw a map of the county.

WARRICK COUNTY.

1. IN what part of the State is Warrick County?
2. When was it organized?
3. Bound Warrick County.
4. After whom was it named? A. Captain Jacob Warrick.
5. In what Congressional District is it?
6. How many square miles does it contain? A. 336.
7. What is its population?
8. What is its capital?
9. What is the population of Booneville?
10. What are the rivers of this county?
11. What river on the east?
12. What one on the south?
13. What canal passes through the western part?
14. Where is Booneville situated?
15. What is its latitude?
16. What is its longitude?
17. When was Warrick County settled?
18. Name some of the early settlers.
19. How many townships in this county?
20. Name them; beginning with the north-western township.
21. Bound each township.
22. Give the population.
23. Number of square miles.
24. Name the small streams of water.
25. When and by whom settled?
26. Describe the towns.
27. Draw a map of each township.
28. Draw a map of the county.

WASHINGTON COUNTY.

1. In what part of the State is Washington County?
2. Bound Washington County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 540.
6. What is its population?
7. What is its capital?
8. What is the population of Salem?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Washington County settled?
13. Name some of the early settlers.
14. What are the rivers of this county?
15. What railroad passes through it?
16. What river on the north?
17. How many townships in this county?
18. Name them; beginning with the north-western township.
19. Bound each township.
20. How many square miles in each?
21. What is the population of each?
22. When and by whom settled?
23. Name the small streams of water.
24. Describe the towns.
25. Draw a map of each township.
26. Draw a map of the county.

WAYNE COUNTY.

1. IN what part of the State is Wayne County?
2. Bound Wayne County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 400.
6. What is its population?
7. What is its capital?
8. What is the population of Centerville?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. What important town in this county?
13. What is its population?
14. When was Wayne County settled?
15. Name some of the early settlers.
16. What river in this county?
17. What railroad passes through it?
18. How many townships in it?
19. Name them; beginning with the north-western township.
20. How many square miles in each?
21. What is the population of each.
22. When and by whom settled?
23. Name the small streams of water.
24. Describe the towns.
25. Draw a map of each township.
26. Draw a map of the county.

WELLS COUNTY.

1. In what part of the State is Wells County?
2. When was it organized?
3. Bound Wells County.
4. In what Congressional District is it?
5. How many square miles does it contain? A. 380.
6. What is its population?
7. What is its capital?
8. What is the population of Bluffton?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was Wells County settled?
13. Name some of the early settlers.
14. What river in this county?
15. How many townships in it?
16. Name them; beginning with the north-western township.
17. How many square miles in each?
18. What is the population of each?
19. When and by whom settled?
20. Name the small streams of water.
21. Describe the towns.
22. Draw a map of each township.
23. Draw a map of the county.

WHITE COUNTY.

1. IN what part of the State is White County?
2. Bound White County.
3. When was it organized?
4. In what Congressional District is it?
5. How many square miles does it contain? A. 500.
6. What is its population?
7. What is its capital?
8. What is the population of Monticello?
9. Where is it situated?
10. What is its latitude?
11. What is its longitude?
12. When was White County settled?
13. Name some of the early settlers.
14. What are the rivers of this county?
15. What railroads pass through it?
16. How many townships in it?
17. Name them; beginning with the north-western township.
18. Bound each one.
